Unlock the Creativity and Productivity of Your Employees' Minds

Bala Kanayson's Whole Mind Success® seminar provides a new approach to achieving greater productivity and creativity not only on the job but in life.

Whole Mind Success® is a series of sharply honed, practical and effective seminars combining the structured principles of math, engineering, and science with innovative techniques for improving human thought processes.

Similar techniques have recently been highlighted in the Wall Street Journal and have been the focus of several discussions regarding the neurological science of the cognitive brain. Whole Mind Success® cuts through the clutter and provides your business with the necessary tools to profit from the untapped creativity and productivity of your employees.

Whole Mind Success® raises mental power to a whole new level. You have two sides to your brain. In Whole Mind Success® Bala Kanayson helps identify which side of the brain is dominant and trains attendees on how to use both sides of their brain to maximize productivity and creativity.

Before the first hour of this powerful seminar is over, your employees will think smarter, act smarter, and marshal more power than you ever knew they had.

Tap into the deepest resources of your business; your employees' minds:

- Use both sides of your brain for maximum productivity and creativity.
- Create more efficient teams.
- Take command of any decision-making.
- Focus on growth at every stage of a project.
- Deal effectively with situations that once seemed impossible.
- Increase morale in the workplace.
- Find new ways to solve difficult problems.
- Master the art of silencing the mind.
- Set goals and empower employees to achieve them.
- Communicate effectively with others.
- Define the path to success and make it a reality.

About Bala Kanayson

Bala Kanayson, the founder of Whole Mind Success®, spent 20-years in the engineering field working for international corporations including Rolls Royce, GE Aircraft Engines, and Schlumberger. He is a Chartered Engineer in aerospace science and a Fellow of the American Institute of Stress.

It was during his years as an engineer that Mr. Kanayson began developing Whole Mind Success® – a powerful new approach to achieving greater productivity not only on the job but also in every other area of life. He combined the structured principles of math, engineering, and science which he used in the aerospace, oil, and electronics industries, with his research into the neurological science of the cognitive brain. This resulted in the creation of a revolutionary new way to master careers, finances, relationships, and goals.

His work evolved into Whole Mind Success® – a series of sharply honed, practical and effective seminars that are both educational and entertaining. He has presented his seminars to hundreds of executives, educators, and students at corporations, organizations, and universities throughout the world including Europe, Singapore, Canada, and the United States.

Mr. Kanayson has also been a guest speaker at the United Nations.

In addition to his busy schedule as a respected and much requested seminar presenter, Mr. Kanayson also teaches stress reduction, education and career building skills.
